Top level	Secondary level	fundamental level	example
	programming language		**python**
		software	**chrome**
		service	**stackdriver**
		platform	**magento**
	applications for programming	framework	**tensorflow**
		mobile os	**android**
	os	desktop/server os	**linux**
		relational database	**mysql**
	database	non-sql database	**redis**
	hardware	device	objective c on **iphone**
		package	**plyr**
	package/library	library	**pandas**
		extention	**restplus**
	plugin/extention	plugin	**ionic-cordova-plugin**
	compiler	compiler	**gcc**
Programming language and technology	protocol		**usb** focus control
		design pattern	**visitor pattern**
	programming paradigm	algorithm	**naibe bayes**
	user action		pydev **install**
	program action		**orderby**
Task	difference seeking		time
	class name		**NSAttributedString** html image
Data type	attribute name		delete **item** in list
		file type	print **pdf**
		URL	**www.instagram.com**
	technical object	metric	**precision**
Object	general terminology		time zone in **india**
		version	how to play a sound in swift **4**
		adjective	css **third** child
	detailed conditions	description	set the filename **when dowload**
Condition	negative condition		imageview is **not** update
	command		**grep**
	API		**google-cloud-speech**
Method	method/function		**heapq.nlargest**
		bug trace	**Servlet.init() for servlet REST Service Jersey java.lang.NoSuchMethodError: javax.ws.rs.core.Application.getProperties()Ljava/util/Map;**
	program generated error information	error code	**HTTP status 500**
		bug detailed description	**invalid literal** for int with base 10
Error information	unexpected behavior described by developers	bug summary	**input error**
		container	**docker**
	application container	cloud computing	**aws**
		CI/CD	**jenkins**
		package management	**maven**
		vcs	**git**
	management tool	testing tool	**appium**
		editor	**atom**
		editor plugin	**pydev**
Development tool	coding editor	terminal	**powershell**
Question word	question words		**what, how, why, when, where**
Code	code snippets		**<title>Localmatureflirts contact</title> <meta name="Keywords" content="Localmatureflirts" /> <meta name="Description" content="Localmatureflirts contact" /> <meta name='ROBOTS' content='INDEX, FOLLOW'/>**
